MESSAGE FROM THE DEAN

Dr. G. VENKATESWARA RAO
DEAN & PRINCIPAL
MAMATA DENTAL COLLEGE

I am delighted to welcome the newly joined undergraduate and postgraduate students. The decision of getting into the profession of dentistry demands a high degree of intellectual ability and personal commitment. It gives us great pride that our college is recognized as a spearheading institute in the forefront of basic and applied research in health related disciplines. We desire our students to have an enriching experience during their learning years, to leave us not only with acquired knowledge and skills but as radiant dentists who are motivated towards research and innovation in their field. A wide array of workshops, conferences, novel and challenging learning strategies and interdisciplinary resources aid our students for acquiring the skills and abilities to fulfill their professional duties in a socially responsible manner, to conduct groundbreaking research that upgrades dental practice, and finally to impart knowledge to assist in oral health care policies. We look forward to welcoming you!

MAMATA DENTAL COLLEGE
