MESSAGE FROM THE DEAN

Dr. G. VENKATESWARA RAO
DEAN & PRINCIPAL
MAMATA DENTAL COLLEGE

“I extend a warm welcome to our new undergraduates and postgraduates as they begin their journey from knowledgeable students to compassionate healthcare workers. The impact this pandemic has had on all of our lives is truly profound. I am grateful that despite these challenging times, our faculty and students continue to adapt and adjust with the new virtual mode of learning. Unlike many dental schools, we are at about 90% of our pre-covid capacity. We have also begun vaccinating our faculty, students, and staff who are serving our patients. Our infection control protocols have made the college a safe place to work, learn, and receive treatment. Despite continuing concerns, we have commenced planning for a “new normal”, with the hope we will come back better, not only as an institution and a Faculty, but as a society. Once again, I would like to say how very thankful I am for all you have done throughout the last many months, academically and administratively, and for your ongoing support as we prepare for the next phase.”
